# CONNECTS TO SMARTPHONES VIA BLUETOOTH®

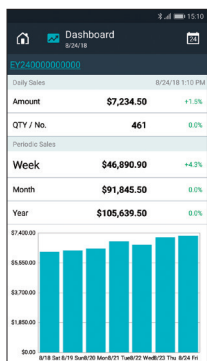

Simple Functionality makes a Big Difference to your Business

This next-generation cash register connects to smartphones via Bluetooth®.

The CASIO ECR+ Smartphone App offers a range of features including register configuration and the ability to check sales figures. It's an information terminal that transcends conventional cash registers to simplify operation and help grow your business.

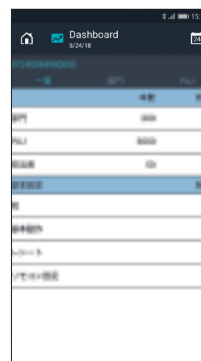

## MAKE YOUR DATA WORK FOR YOU with the Smartphone App

Display store sales in graphical format effectively view any store's performance at a glance.

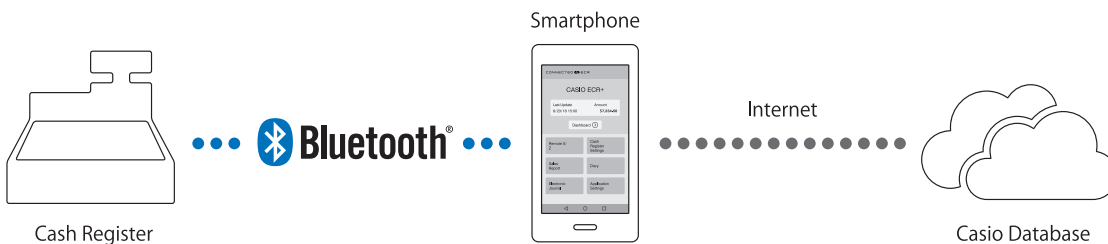

View weekly, monthly and annual graphs of store sales to more effectively analyze and predict sales performances.

\* You can view sales data going back 25 months. Data beyond that time period cannot be viewed.

Using your smartphone with the Casio Connect ECR+ app allows you to easily setup products and change prices on the cash register.

Connect ECR+ streamlines the time consuming tasks of managing cash register settings and data.

# FULL SUITE OF FEATURES for a User Friendly Experience

## INTEGRATED ELECTRONIC PAYMENT

Connecting the PAX-S300 all-in-one payment terminal to a COM port on the cash register, merchants are able to process EMV, credit, debit, gift cards, and EBT transactions on this machine. Merchants have the choice of processors to choose from for electronic payments.

## SCANNING CAPABILITY

Connecting a serial scanner will provide retailers the ability to scan items. Items scanned in registration and not found in the file can be added at that time. The SR series machines can scan UPC and EAN 8/13 barcodes (price / weight encoded codes will not scan). Age verification is available for age sensitive items.

## ADJUSTABLE DISPLAY UNIT with 10 LINE LCD

The high-definition blue display makes data input easy to check. Inputting and checking a bill is smoother with improved visibility and ease of use.

## BACKUP REGISTER DATA TO AN SD CARD

Register data, program, and sales can be backed up to an SD Card to provide a level of security to the retailer that their important information is backed up.

## HIGH SPEED PRINTER

Fast printer with 20 lines / sec output reduces customer waiting time during busy periods.

## STEEL DRAWER THAT IS DURABLE AND AESTHETICALLY PLEASING

The high-quality steel outer casing of the drawer is very robust. You can have confidence that this register will last a long time.

## POP-UP DISPLAY FOR CUSTOMERS

The customer display is an easy-to-see blue backlight. Helps prevent cashier errors to instill greater trust in your store.

## ADDITIONAL FUNCTIONALITY

- Clock In / Out Functionality
- Hairdresser Application with Commission Tracking
- Check Tracking
- Menu Levels
- Penny Rounding (Canada)
- Simple Stock Control
- Arrangement Keys (Linking Multiple Key Strokes)
- Invoice Number Printing on Receipt & Reports
- Watermark Logo Printing on Receipt
- Item Modifier Controls

Watch the promotional movie to see why a Bluetooth®-equipped register makes such a difference!
