*Powerful and flexible solutions from CASIO  
for today's demanding business.*

**TE-4500** Electronic Cash Register  
with a New Multi-Line  
Color LCD Display

# TE-4500F Cash Register

## Main features and functions

### Display Operator display

Pop up customer display with 10 digits numeric LED.

5.2 inch wide LCD screen with 2 lines x 16 characters and a 1 line numeric offer the operator a clear view of the transaction information.

There are 5 selectable colors for the LCD backlight to illuminate the operator display to fit the customer's environment. A scheduler function makes it possible to switch over backlight color, price and menu levels at different times of the day or week.

### Operator display with tilt mechanism

• The LCD display can be tilted to the optimal reading angle.

### Customer display
