DIGITAL DINING

Beauty comes in all sizes

From Apple to Android to Windows to any handheld device...it's your choice. Digital Dining automatically, dynamically scales graphics to the highest resolution possible. No newbie to handhelds the iconic brand Digital Dining has emerged as the undisputed leader in mobility.

Pretty is as pretty does

And Digital Dining does it all...from POS for restaurants and bars with **Table Management** and **Reservations** to **Delivery** and **Online Ordering**... any concept, any size. We've taken the labor out of **Labor Scheduling** and added profits with our **Inventory** controls. Reward your customers with our **Loyalty Plans** and offer **Gift Cards** with no processing fees. Pay at the table and Google Wallet eliminates all worries about identity theft...safe, secure, and totally compliant.

Not just another pretty face

In the clouds or at your desk we've got the reports you want. From standard reports to custom report generators... on your dashboard or on your phone... a single store or multiple stores... anywhere, anytime you are in control... now that's a beautiful thing!

Age before beauty

Since 1984 Digital Dining has been singularly focused on the restaurant industry. That's nearly 30 years of development in one product, resulting in extremely mature, incredibly stable and fabulously featured software... now that's a pretty picture!
