

Global Restaurant POS – A Powerful, Scalable, Feature-Rich Point-of-Sale Solution

Global Restaurant POS is a powerful, all-in-one cloud-based point-of-sale solution, that is designed for fine, casual, and quick service dining environments. From tableside to delivery, kiosk to kitchen, and countertop to online, the solution streamlines restaurant operations, front-to-back, to make it easier for restaurant owners to manage and grow their businesses.

Turn Tables Faster

Sync Servers and Kitchen in Real Time

Manage Orders From Tableside to Delivery

Access Menus, Inventory and Sales From Any Device

Streamline operations with a cloud-based POS

- Checkout customers quickly and process payments while helping to reduce fraud and chargebacks
- Easily split checks by seat, guest and payment method
- Allow customers to quickly and easily tip and sign directly on the touchscreen with Guest Display

Expand your presence with Mobile Ordering

- Enable customers to view your menu and pay for delivery and pickup orders from anywhere
- Extend your brand
- Keep customers coming back by allowing them to see and redeem loyalty points earned on purchases

Cloud-Driven Benefits

- Maintain visibility over end-to-end operations from any Internet-enabled device
- Access real-time reporting to ensure you always have enough staff and inventory on hand
- Continue to take orders, payments and print tickets even if the internet goes down
- Restaurant data is continually backed up and secured with end-to-end encryption

Empower customers with Self Order Kiosk

- Increase average guest spend by allowing customers to choose their selections and pay
- Reduce labour costs and staffing by enabling guests to place their own orders
- Improve order accuracy

Enhance customer experience with the Guest App

- Connect directly with customers, in real-time, including notifying them of special offers and incentives
- Guests can order ahead, scan their check to pay, use loyalty points, and choose between a text, email or paper receipt
