

A point of sale built to help your restaurant succeed?

That's Genius.

Delight guests from tableside to takeout with Genius for Restaurants

Meet guests where they want to dine

Make it easy for customers to get their favorites to go or delivered with online ordering tech that's intuitive for diners and staff.

Turn casual customers into regulars

Boost repeat business without having to rely on disconnected solutions — Loyalty, powered by Como, is built right in.

Speed up checkout with integrated payments

Offer faster, more secure checkout and avoid errors from multiple systems thanks to built-in payment processing.

Get custom solutions for your needs

Tailor your tech stack with any combination of our delivery, reservation, business management and other integrations.

Maximize profits and minimize stress from front to back of house

Order syncing

✓ **Kitchen display** increases productivity with real-time orders syncing from the table, counter, bar, kiosk and online

✓ **Cash discounting** helps you offset processing fees and reward cash-paying guests

✓ **Flexible payment** options like scan to pay give guests the convenience they expect

✓ **Scan to order** puts guests in control and speeds up the dining experience

✓ **Waitlist management** improves customer satisfaction with accurate wait estimates and real-time updates

✓ **Back-office admin** portal empowers you to run reports, perform managerial duties and oversee operations from anywhere

It's so easy, it's Genius
